## **DETAILED ACTION**

### ***Election/Restriction***

Upon further consideration and in the interest of advancing the prosecution, vide infra, the election/restriction requirement of 7/28/04 is hereby withdrawn.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 30-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 30-32 of U.S. Patent No. 6,020,371. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant method claims are drawn to a subset of compounds of the patented method claims. (Compare, for instance, the definitions of A<sub>2</sub>).

Art Unit: 1621

Additionally, claims 30-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 30-32 of U.S. Patent No. 6,331,554. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant method claims are drawn to a subset of compounds of the patented method claims. (Compare, for instance, the definitions of  $Z_1$ ).

### ***Allowable Subject Matter***

The subject matter of claims 30-32 would be allowable once the above rejections have been overcome. The following is a statement of reasons for the indication of allowable subject matter:

The compounds have previously been found to be novel (see US 6,020,371 and 6,331,554, above, and US 6,649,639). Therefore, a method which utilizes these novel compounds must also, per force, be considered novel.
